Evento 1: p1=6 s, p2=0.5 m (■ inicio, ★ target final)

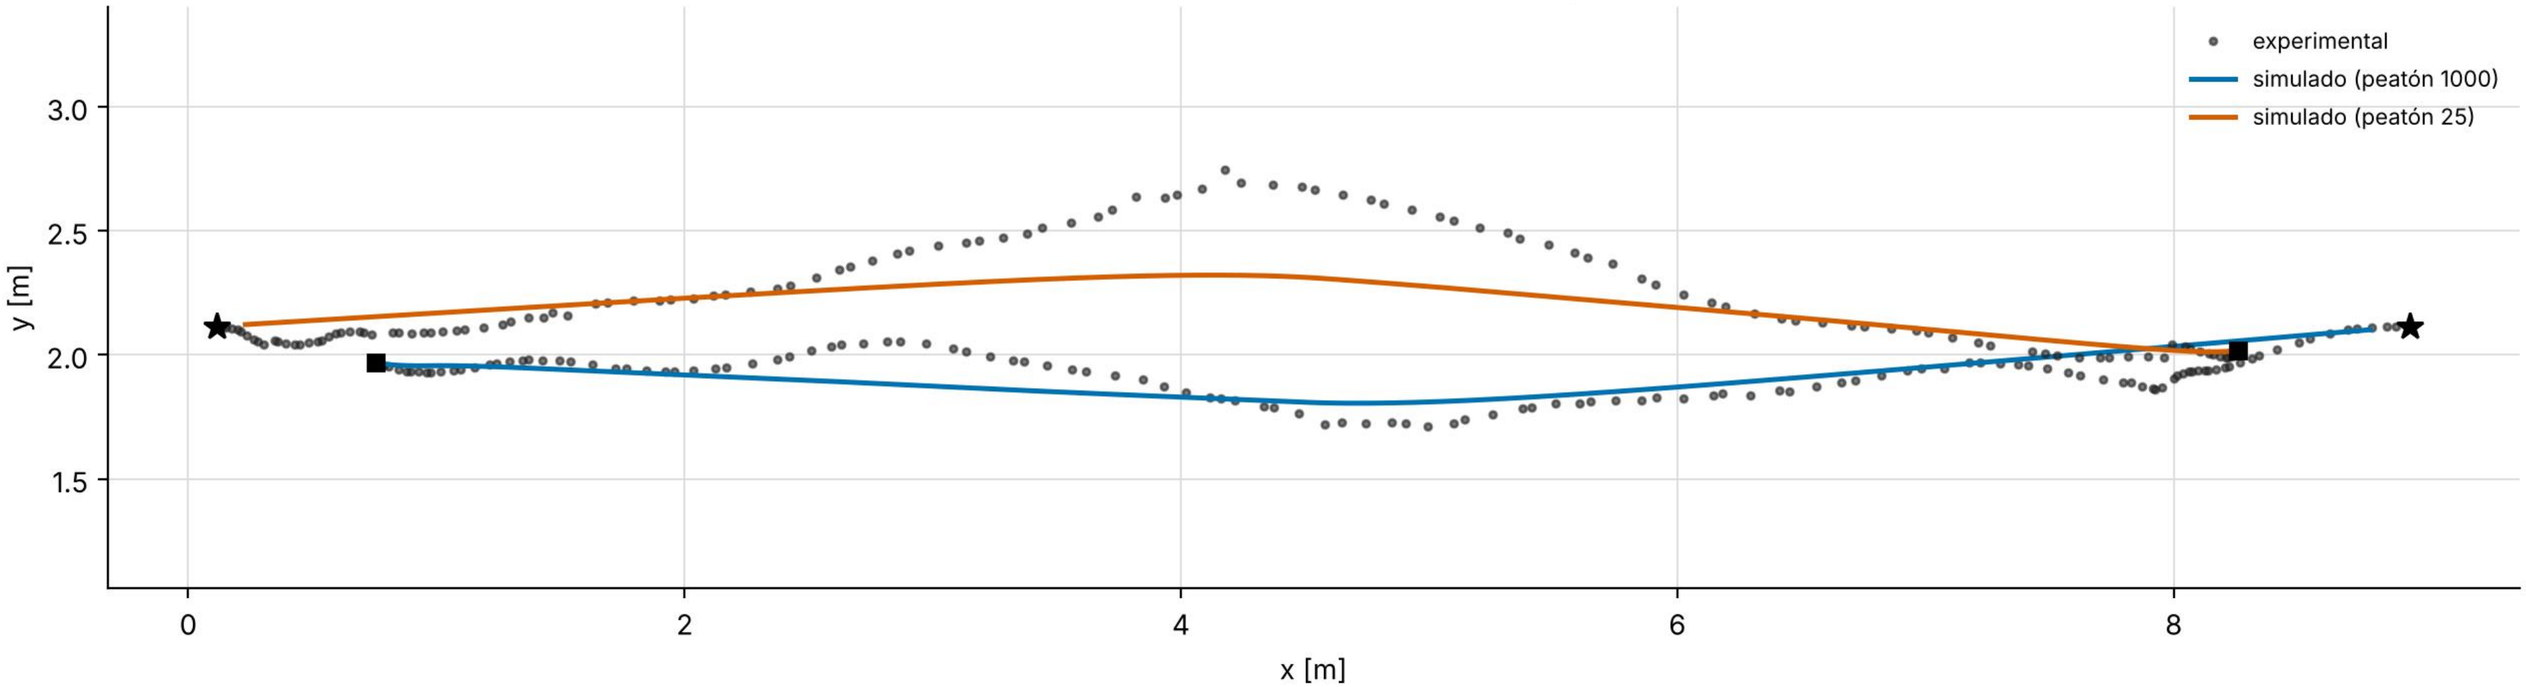

Observable primario: error instantáneo (integrando de la Métrica 1)

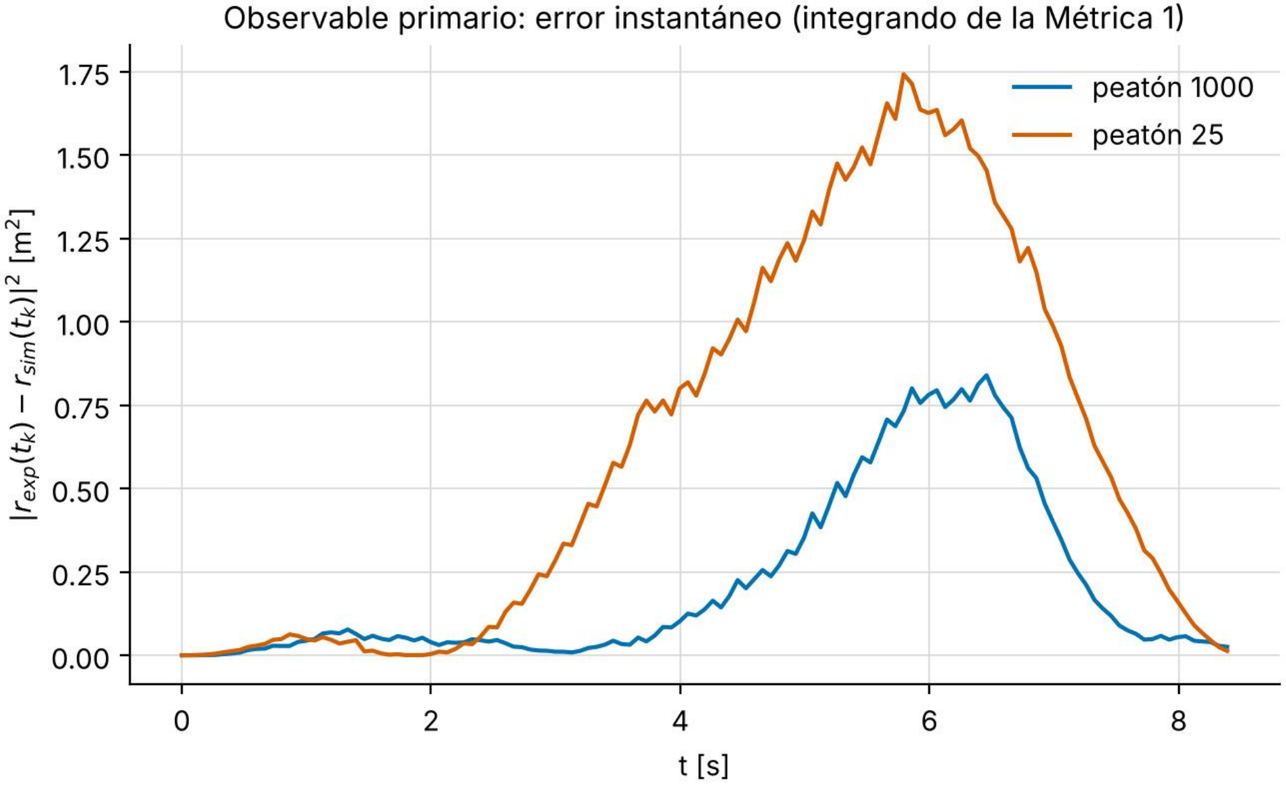

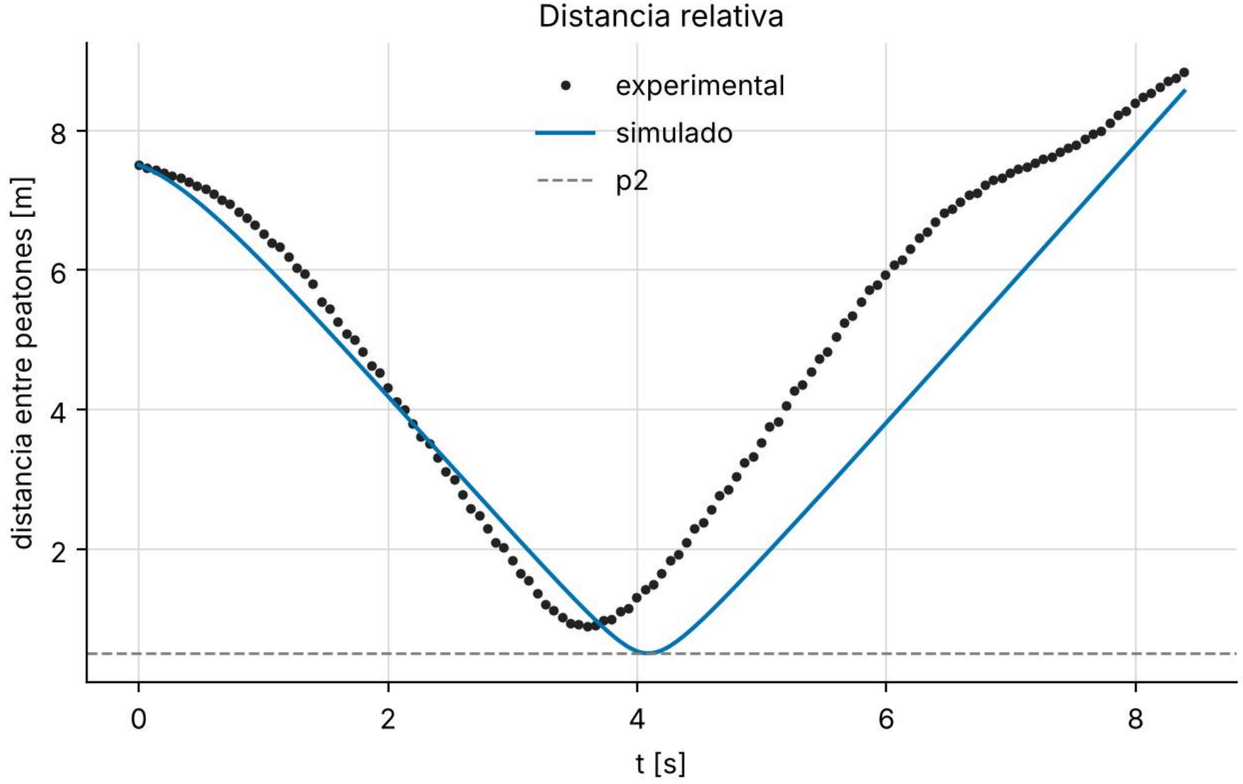

Distancia relativa

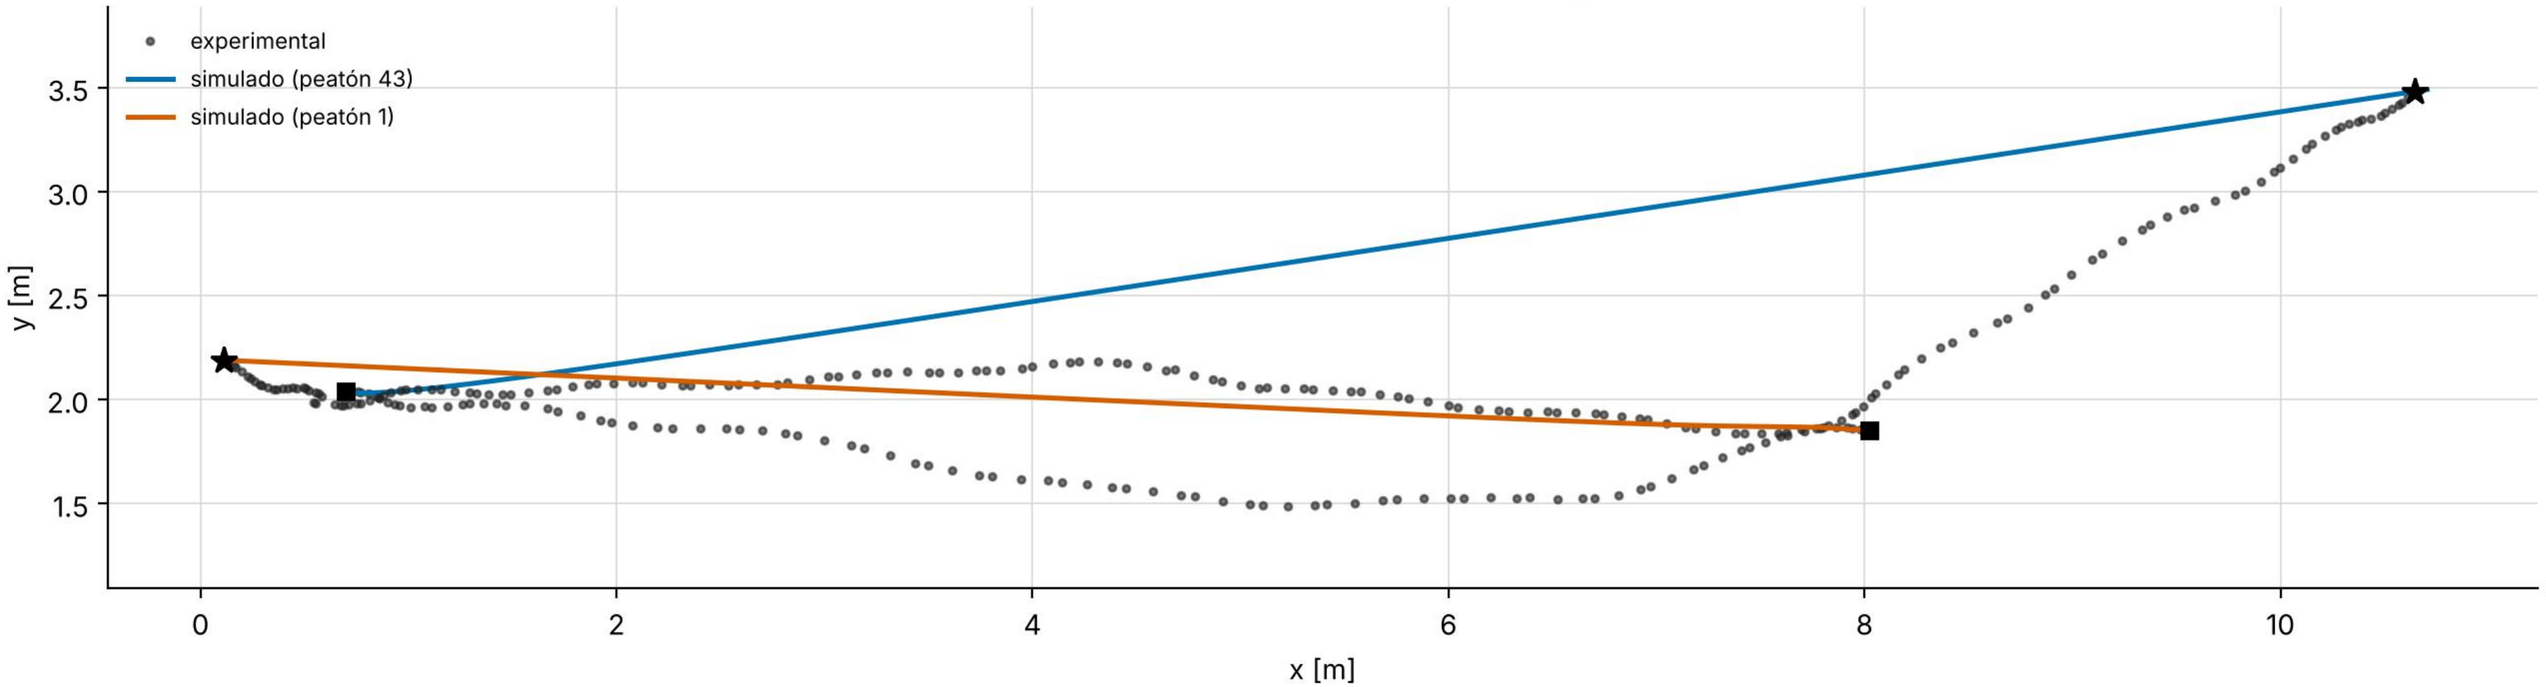

Evento 2: p1=6 s, p2=0.5 m (■ inicio, ★ target final)

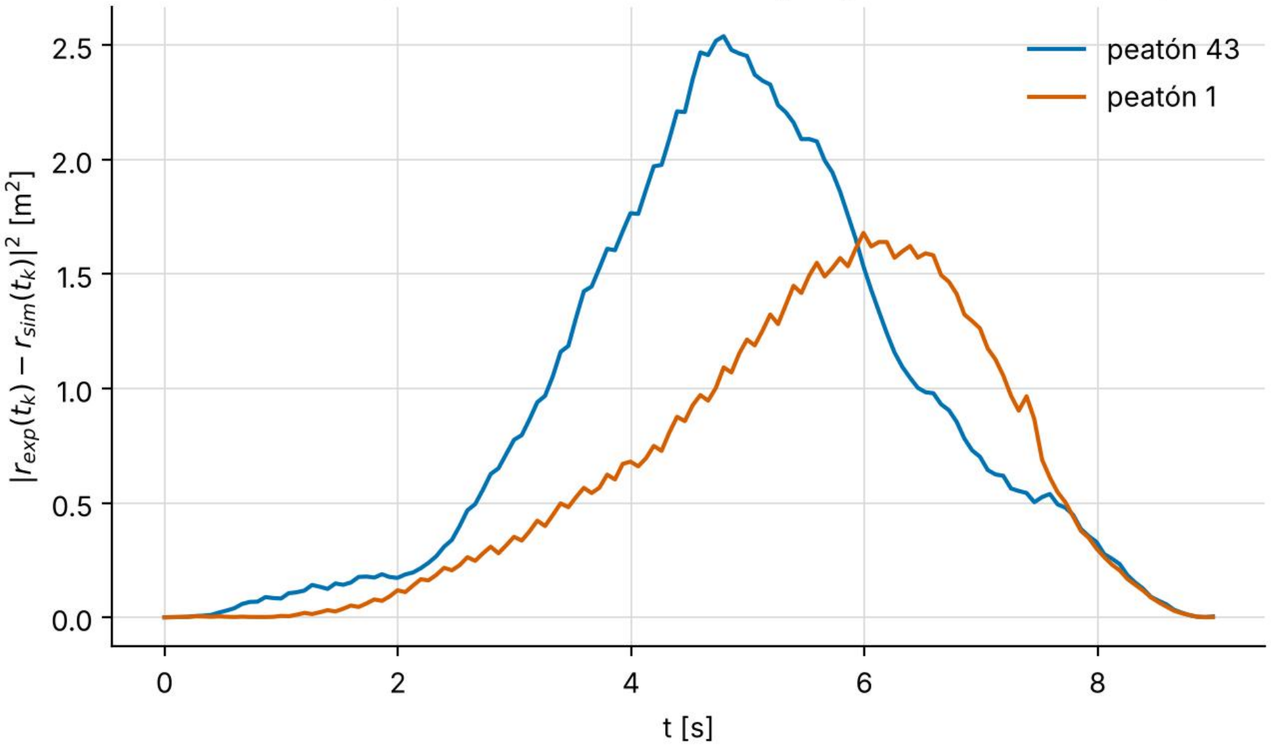

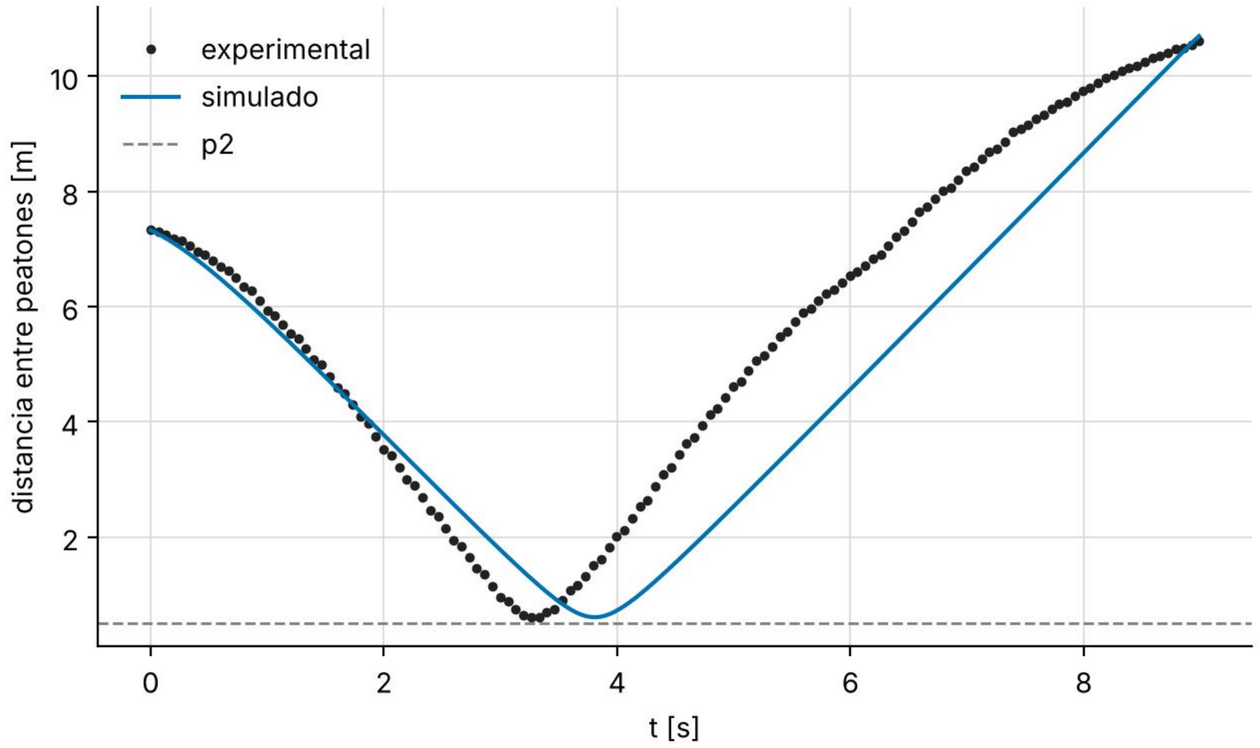

Evento 3: p1=6 s, p2=0.5 m (■ inicio, ★ target final)

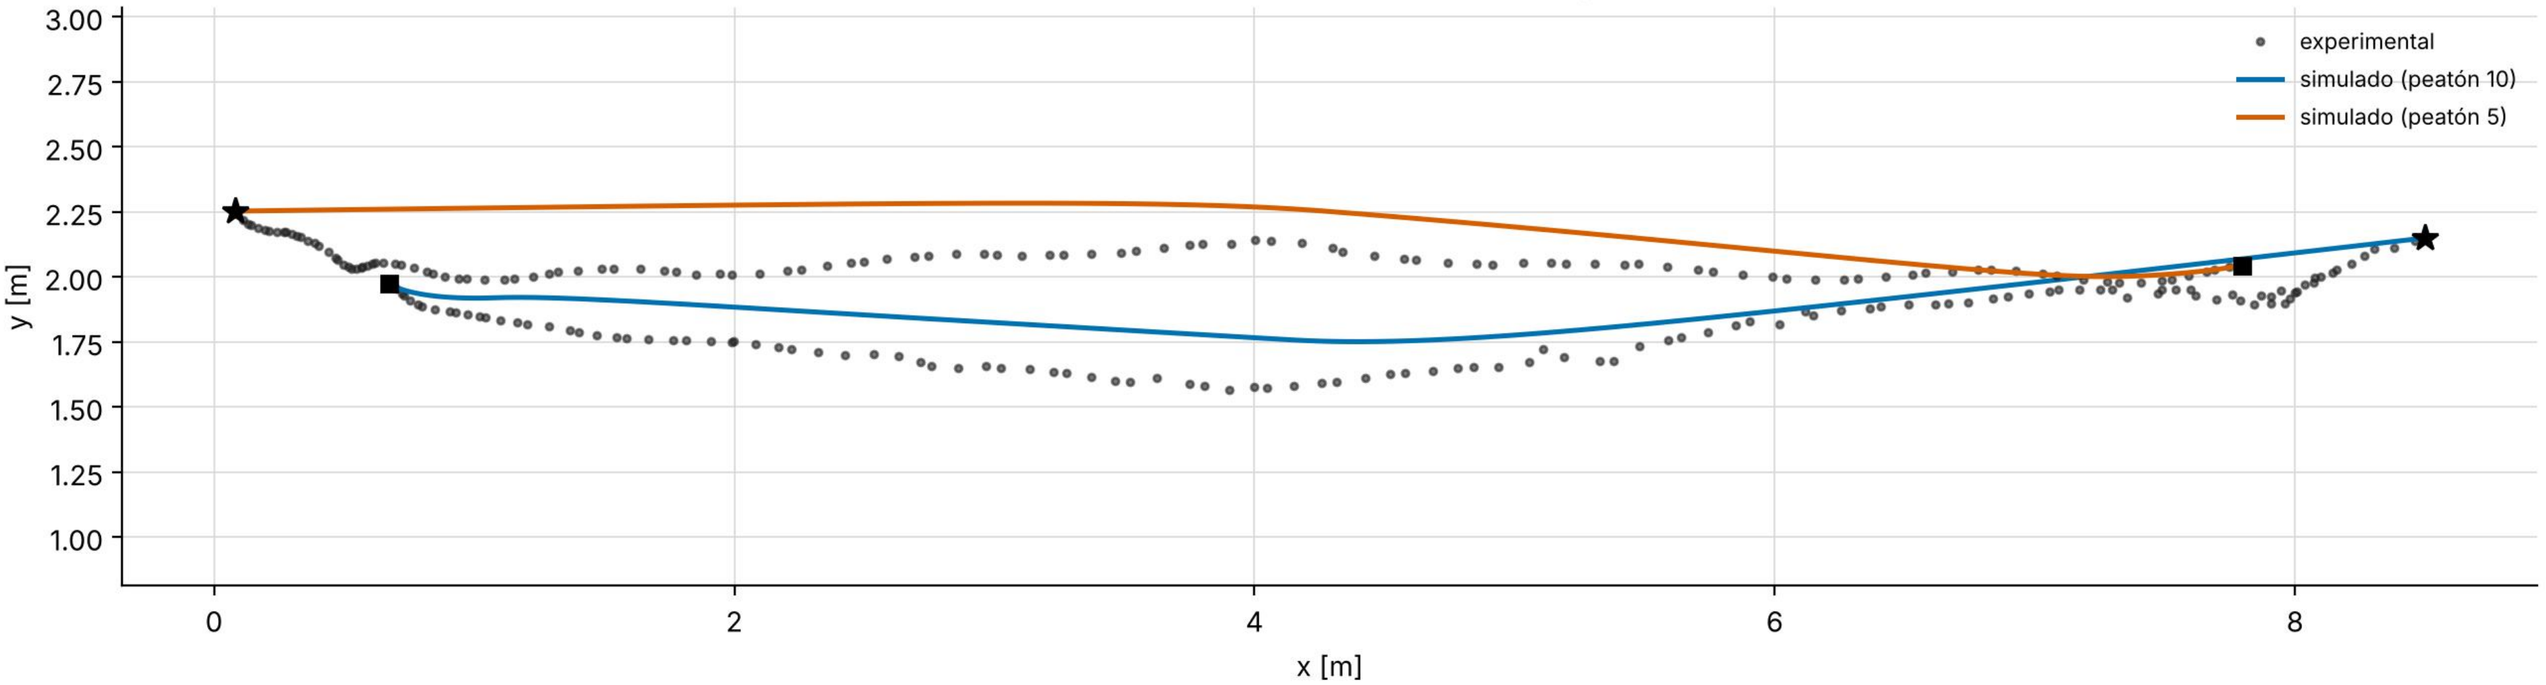

Observable primario: error instantáneo (integrando de la Métrica 1)

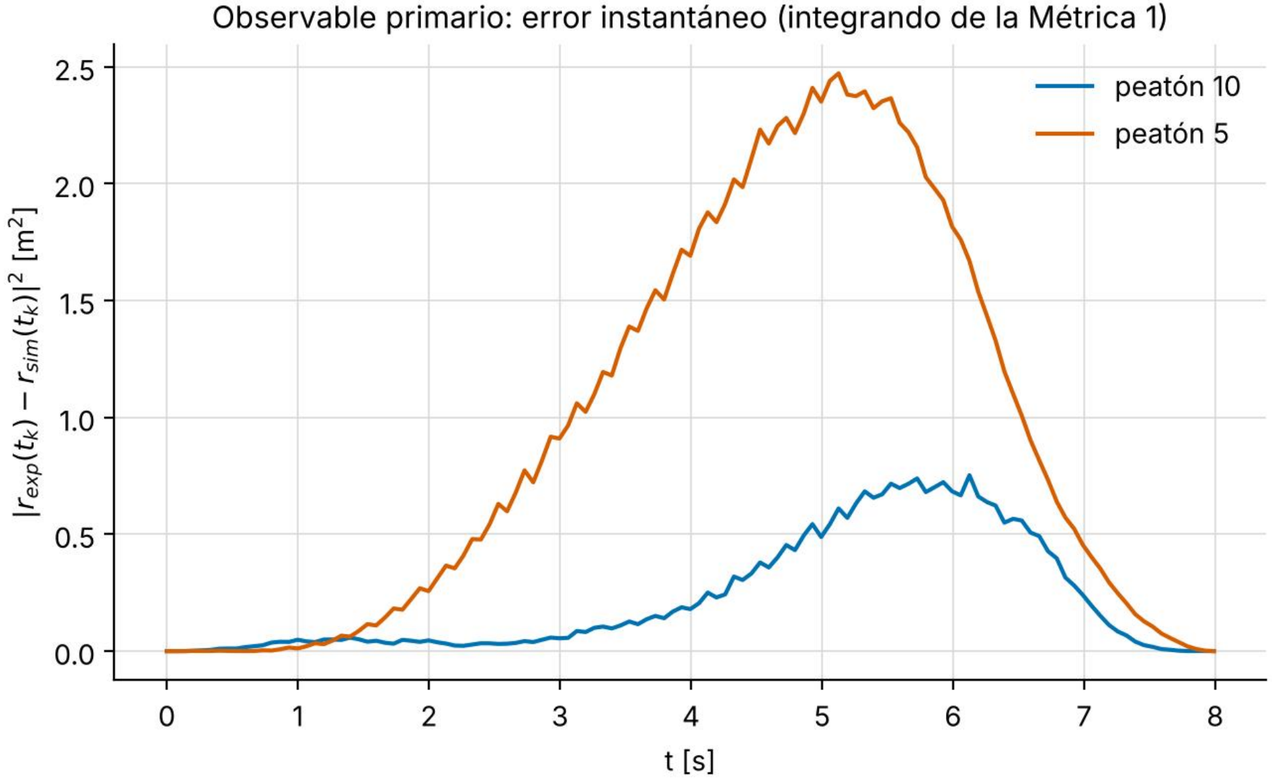

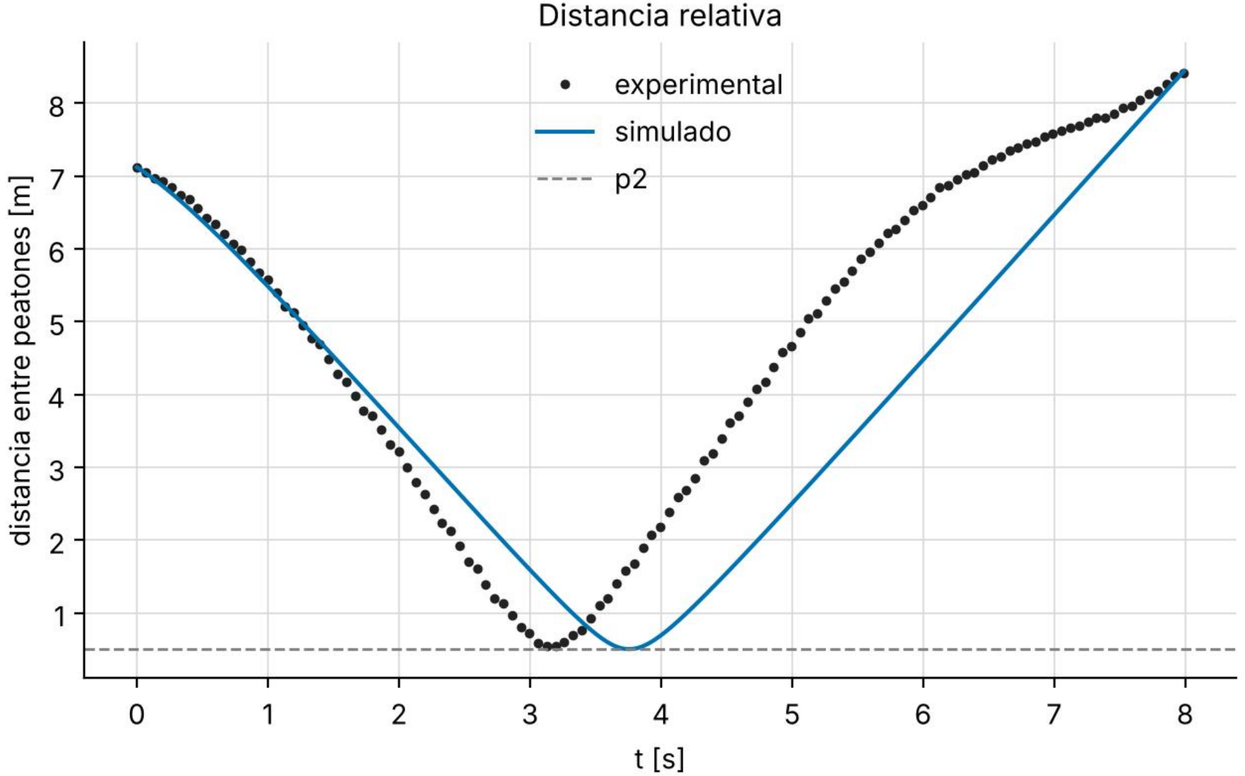

Distancia relativa

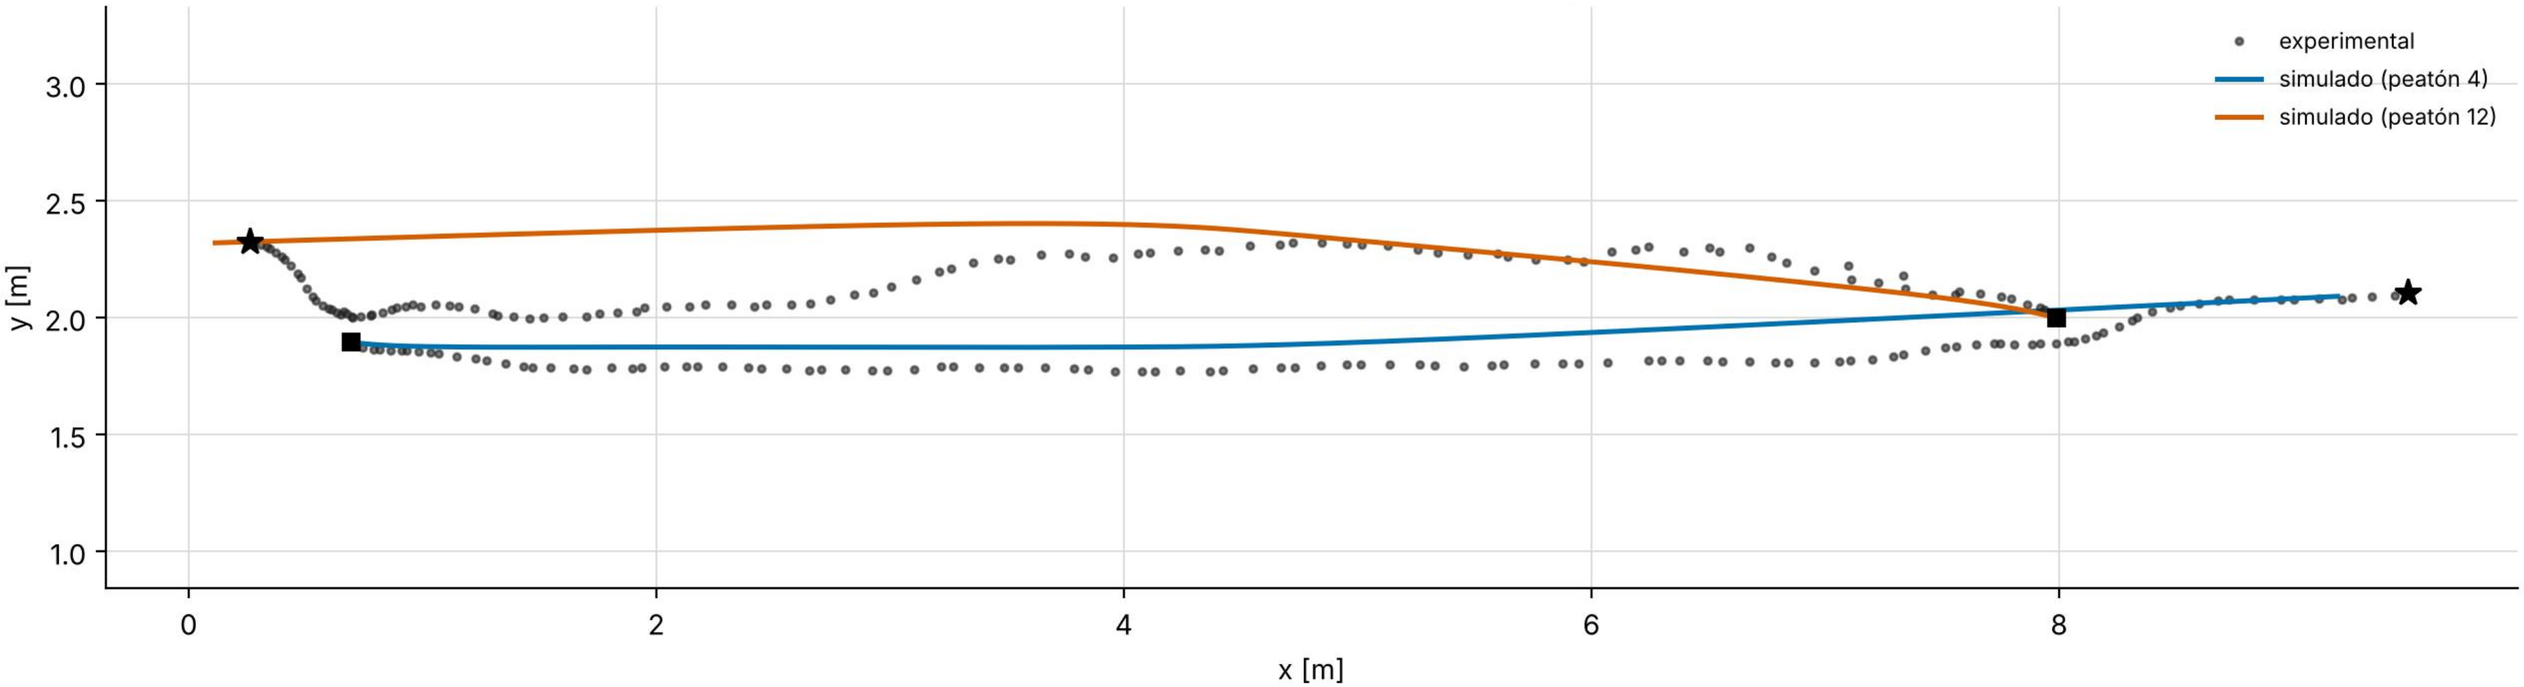

Evento 4: p1=6 s, p2=0.5 m (■ inicio, ★ target final)

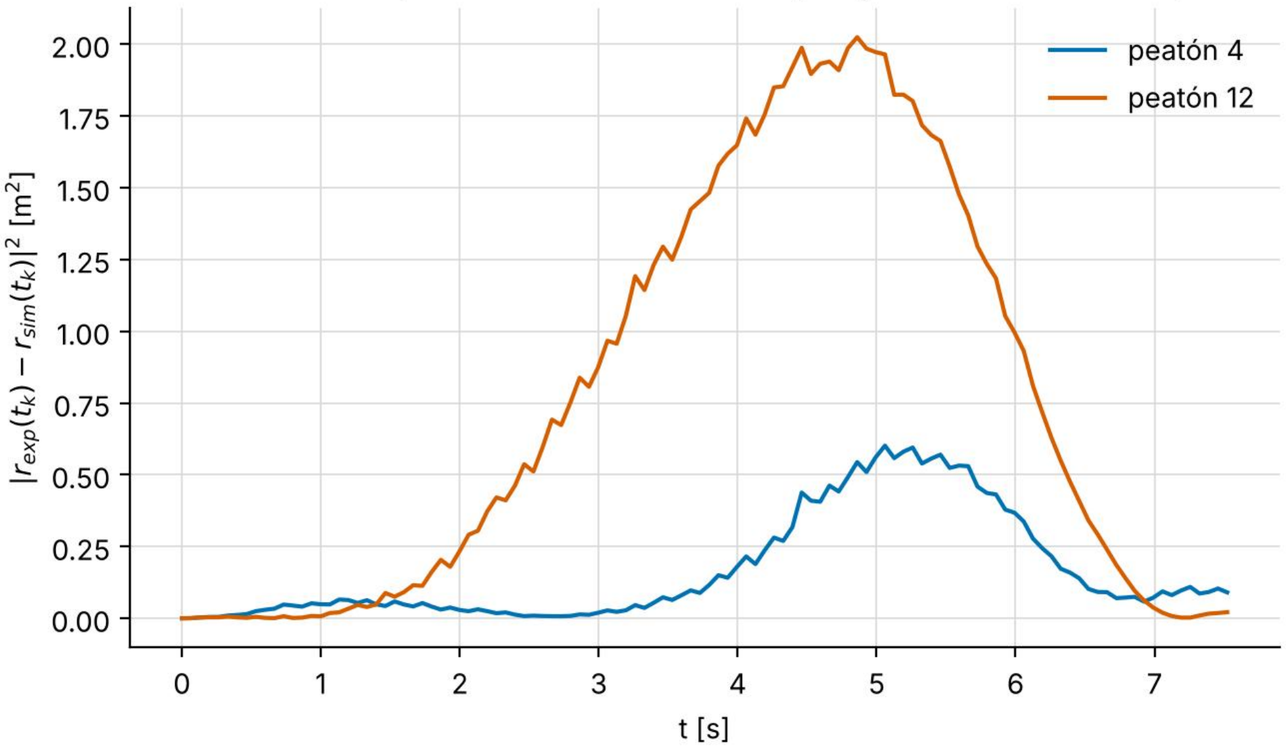

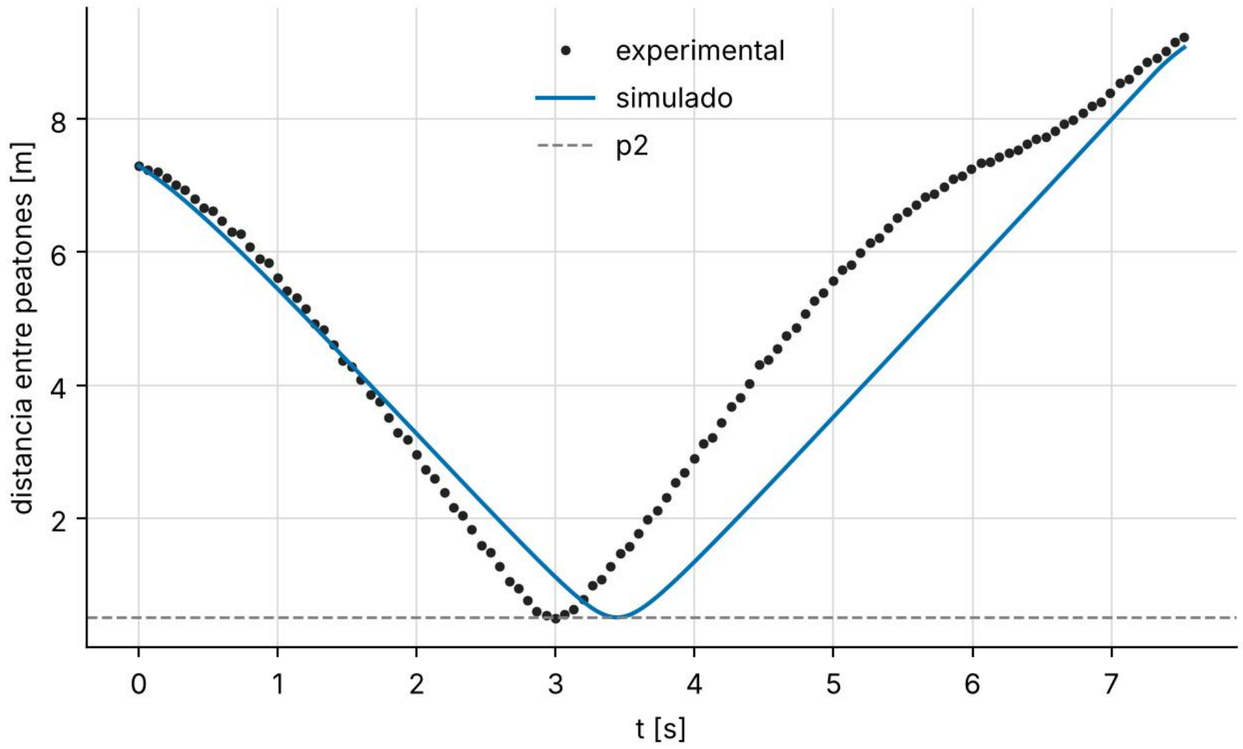

Evento 5: p1=6 s, p2=0.5 m (■ inicio, ★ target final)

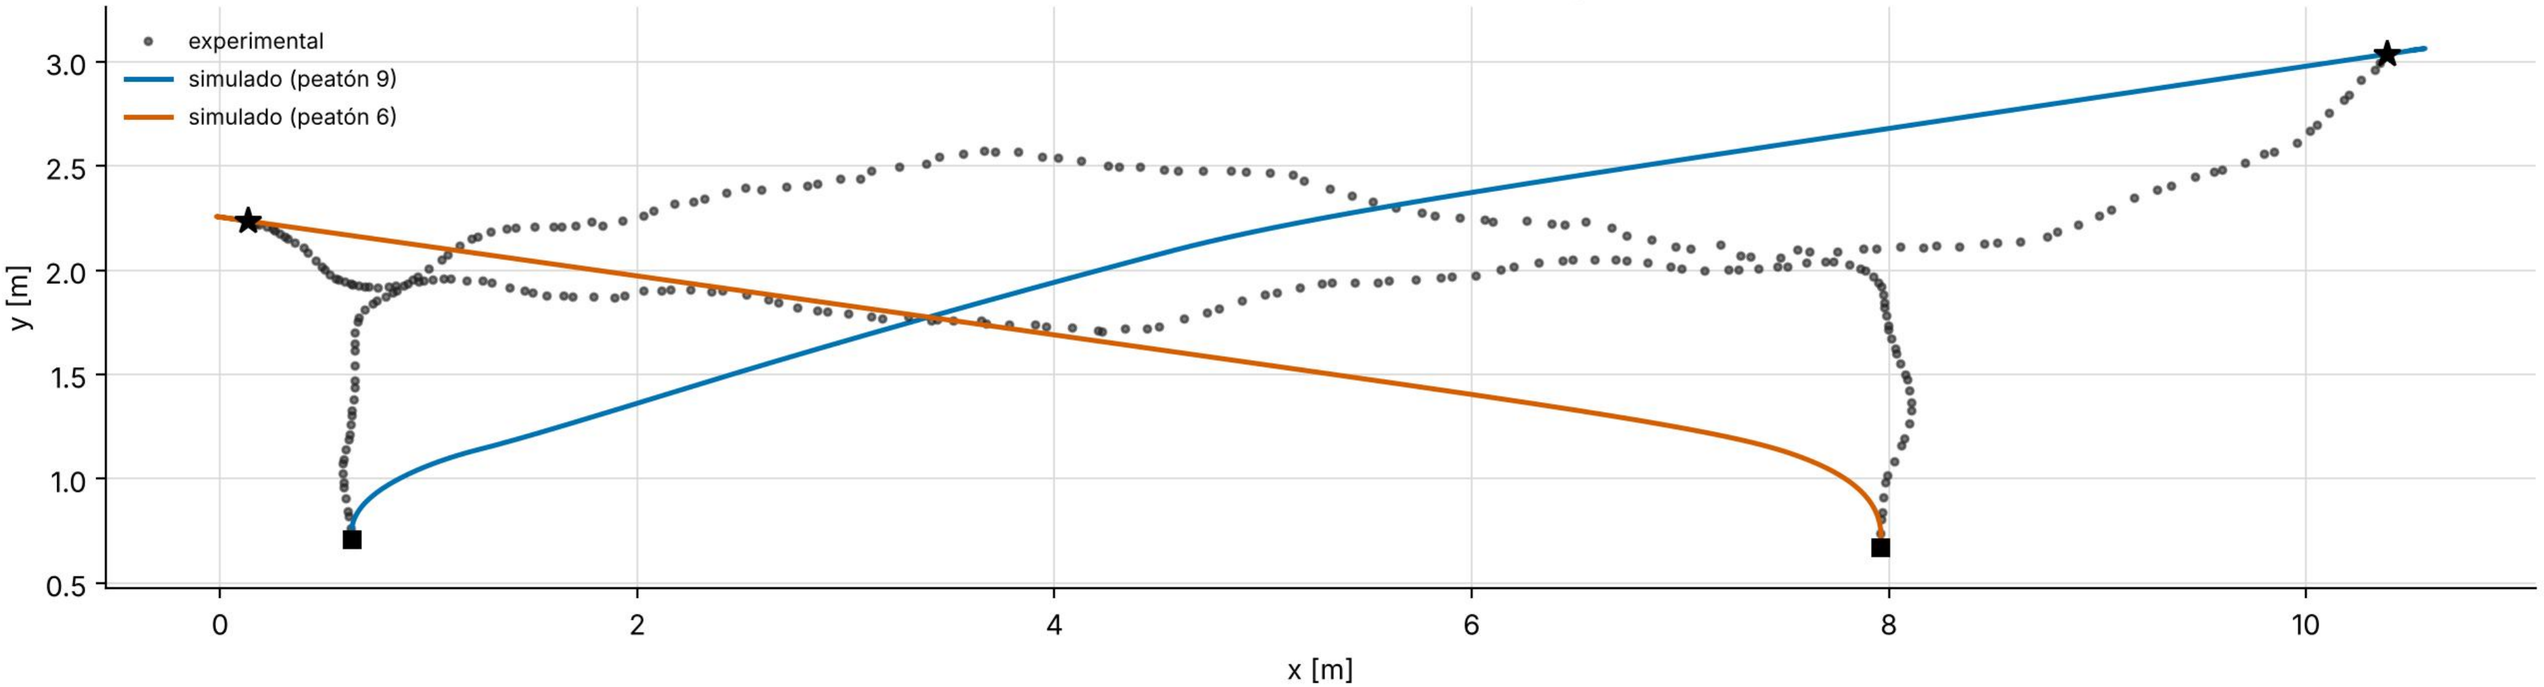

Observable primario: error instantáneo (integrando de la Métrica 1)

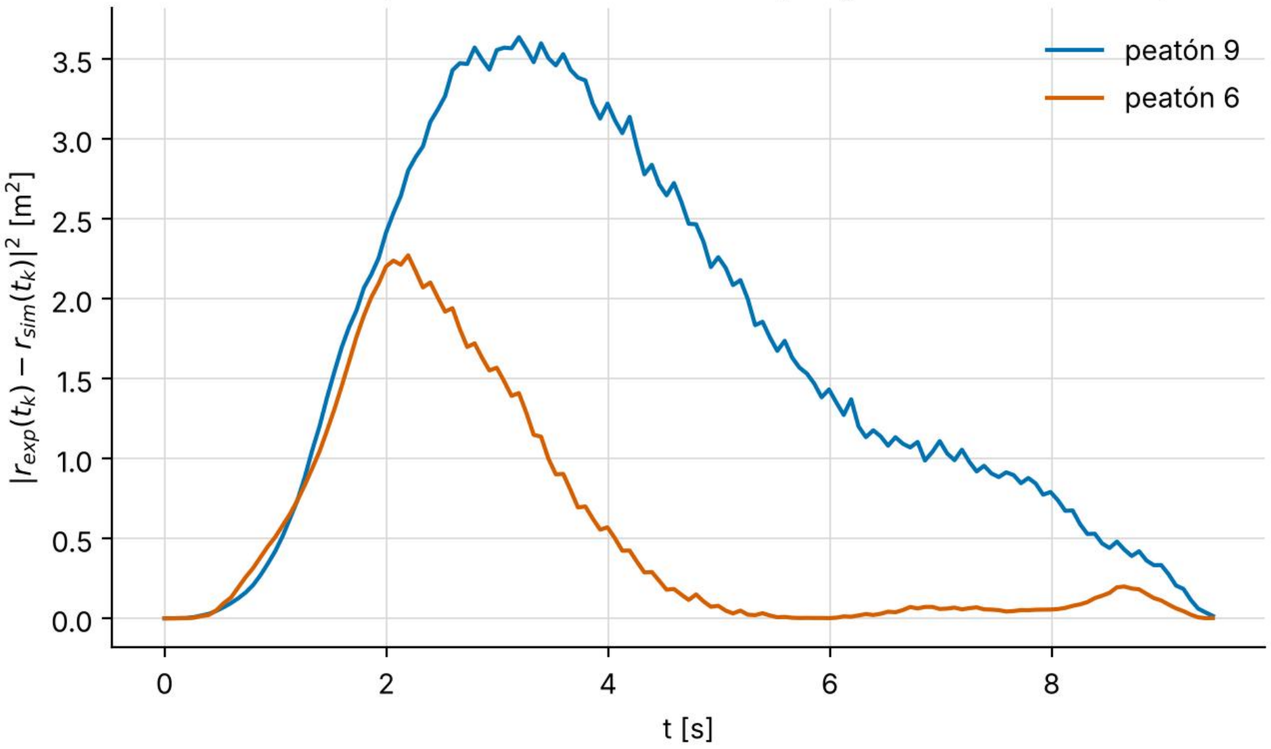

Distancia relativa

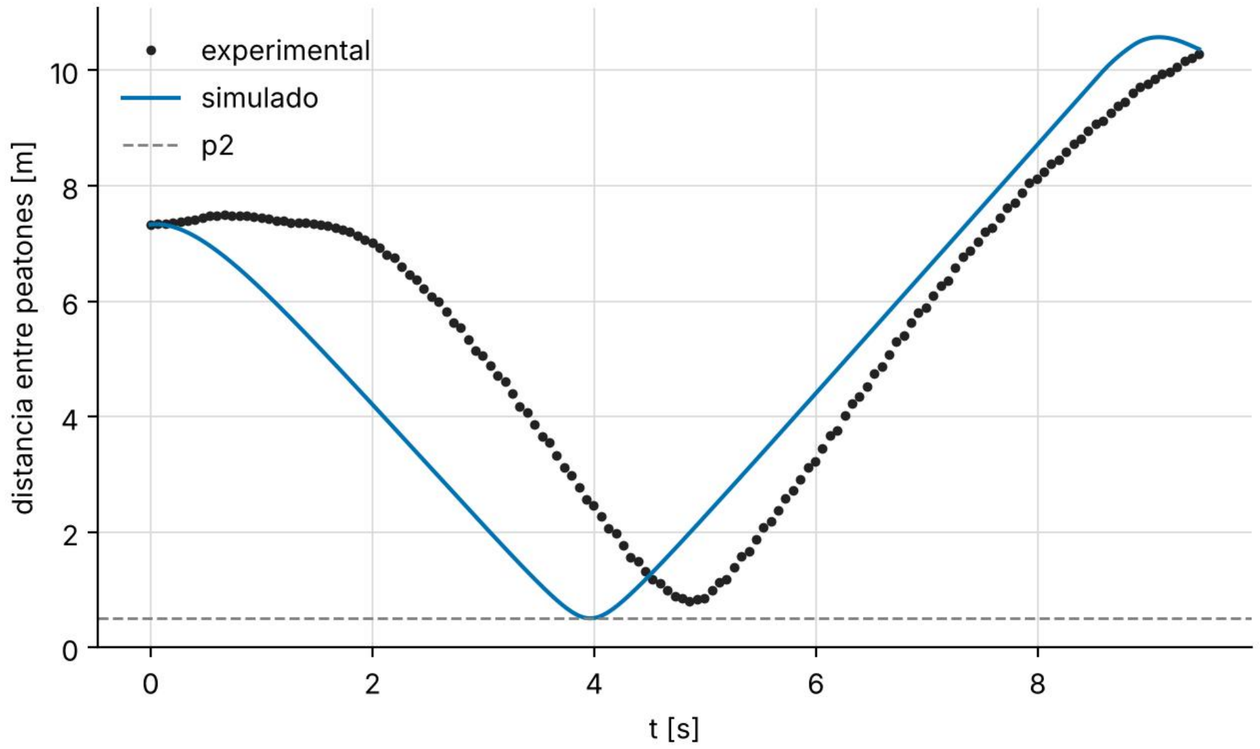

Evento 6: p1=6 s, p2=0.5 m (■ inicio, ★ target final)

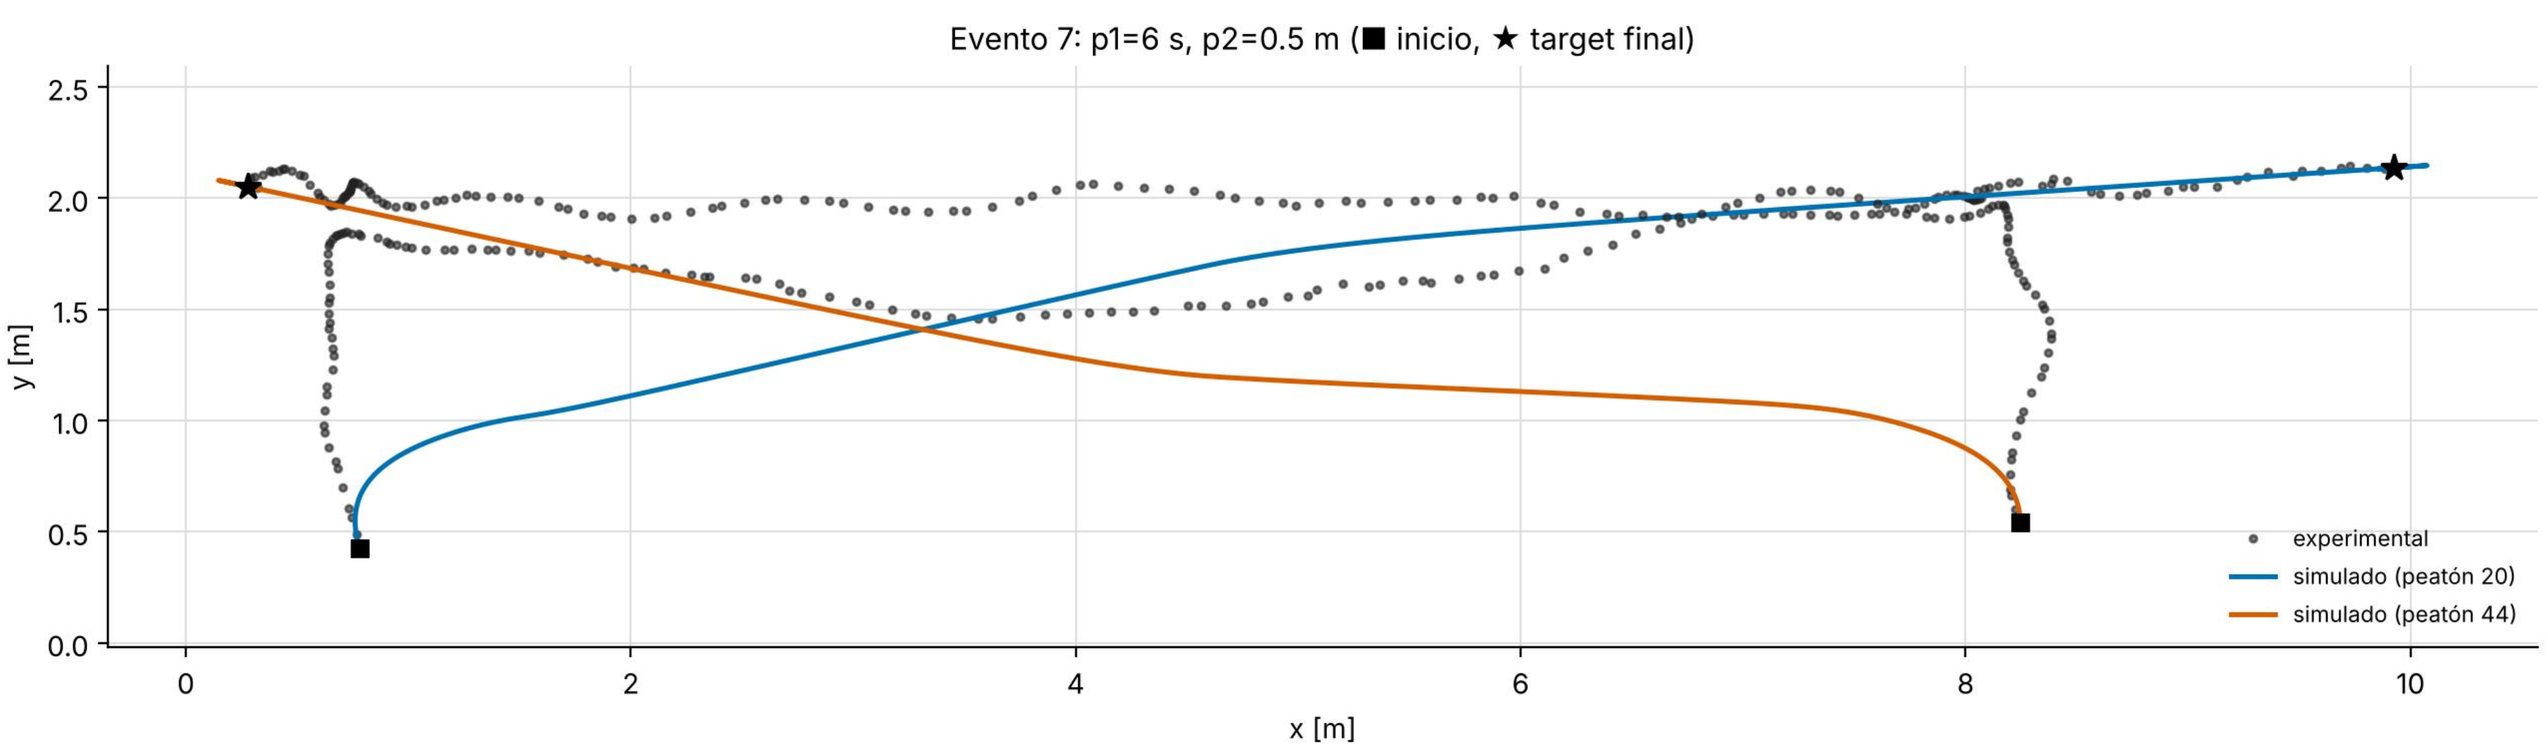

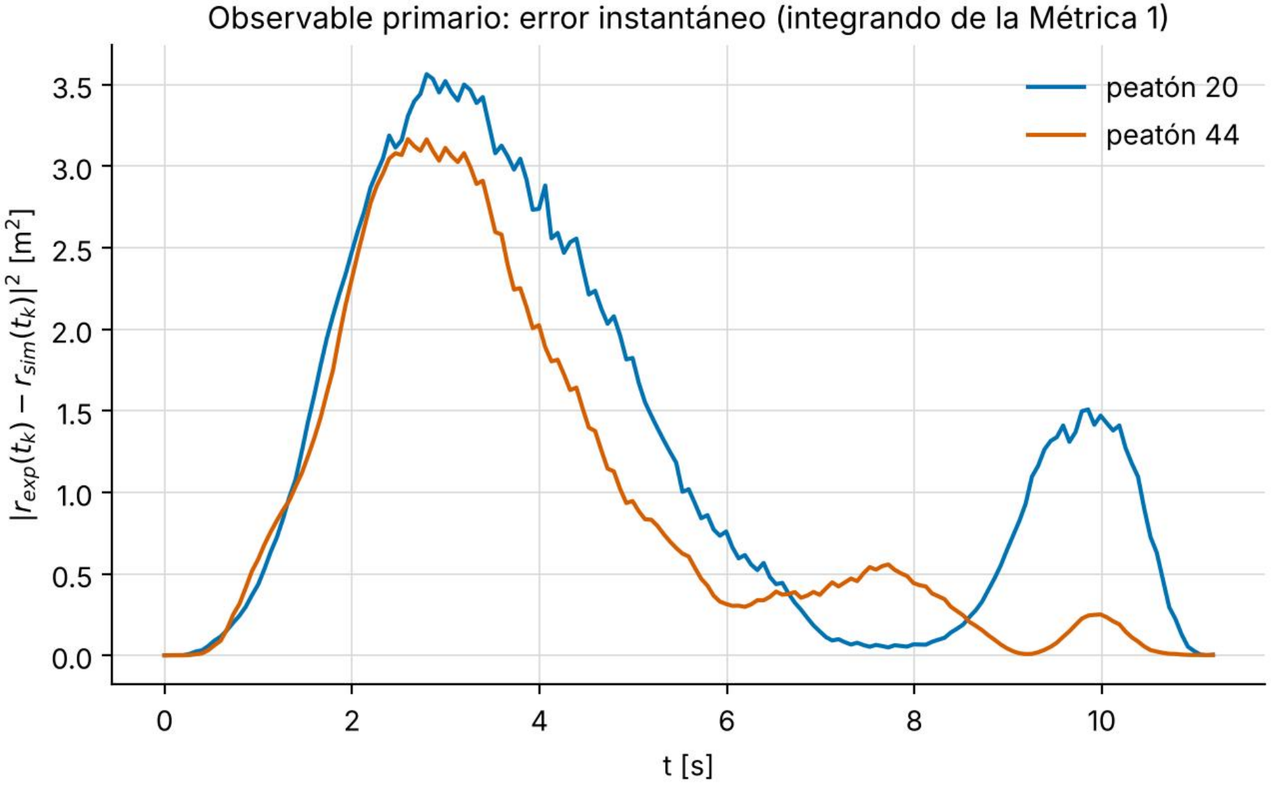

Observable primario: error instantáneo (integrando de la Métrica 1)

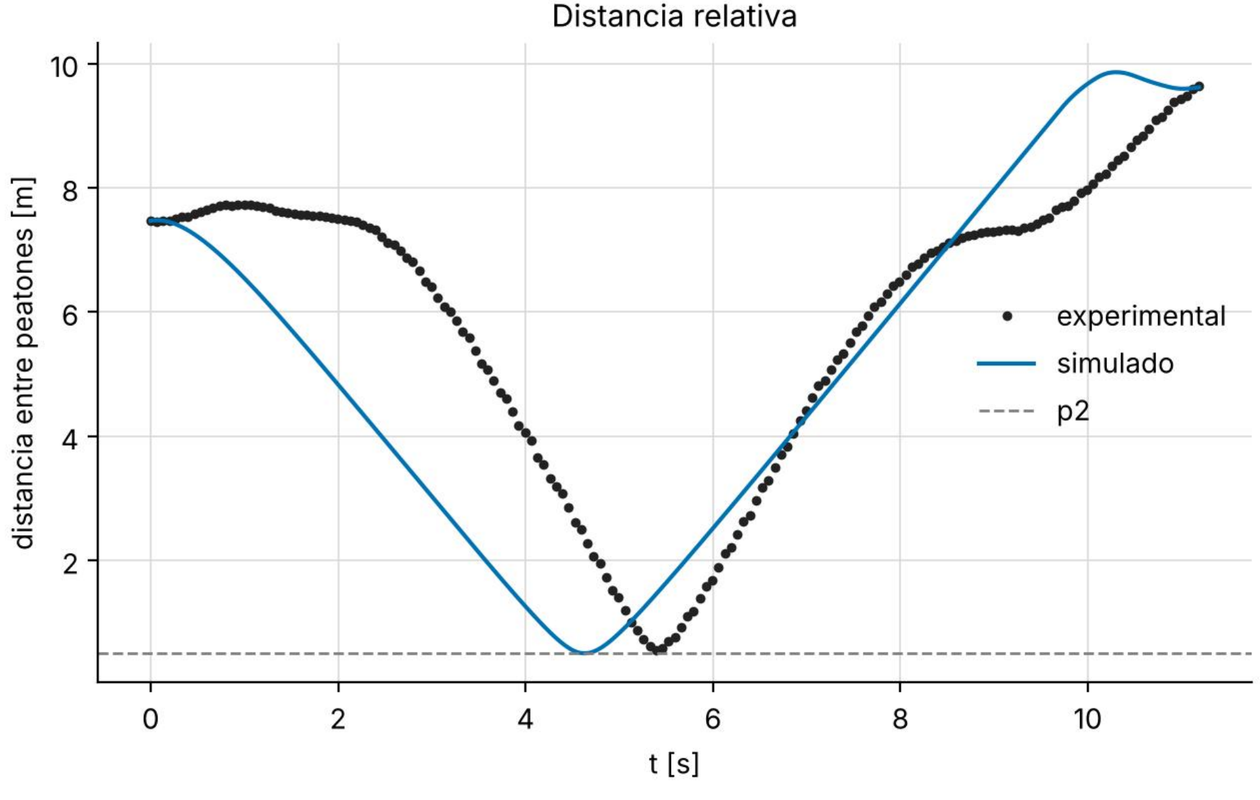

Distancia relativa

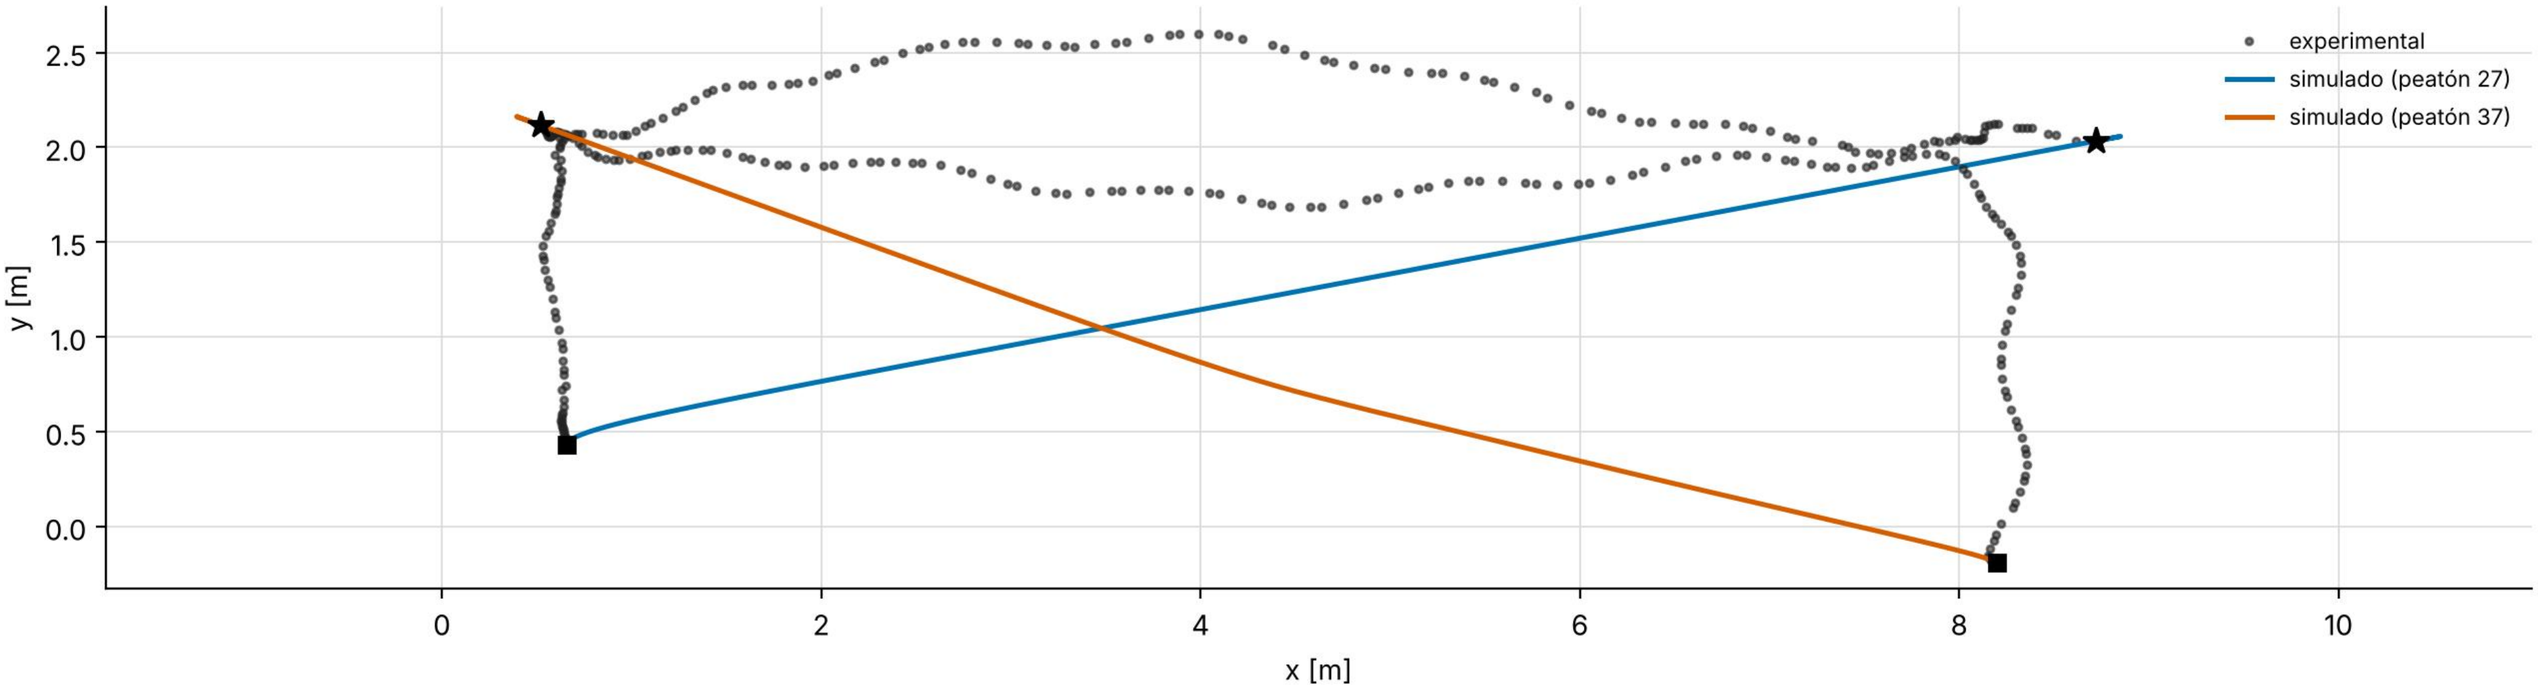

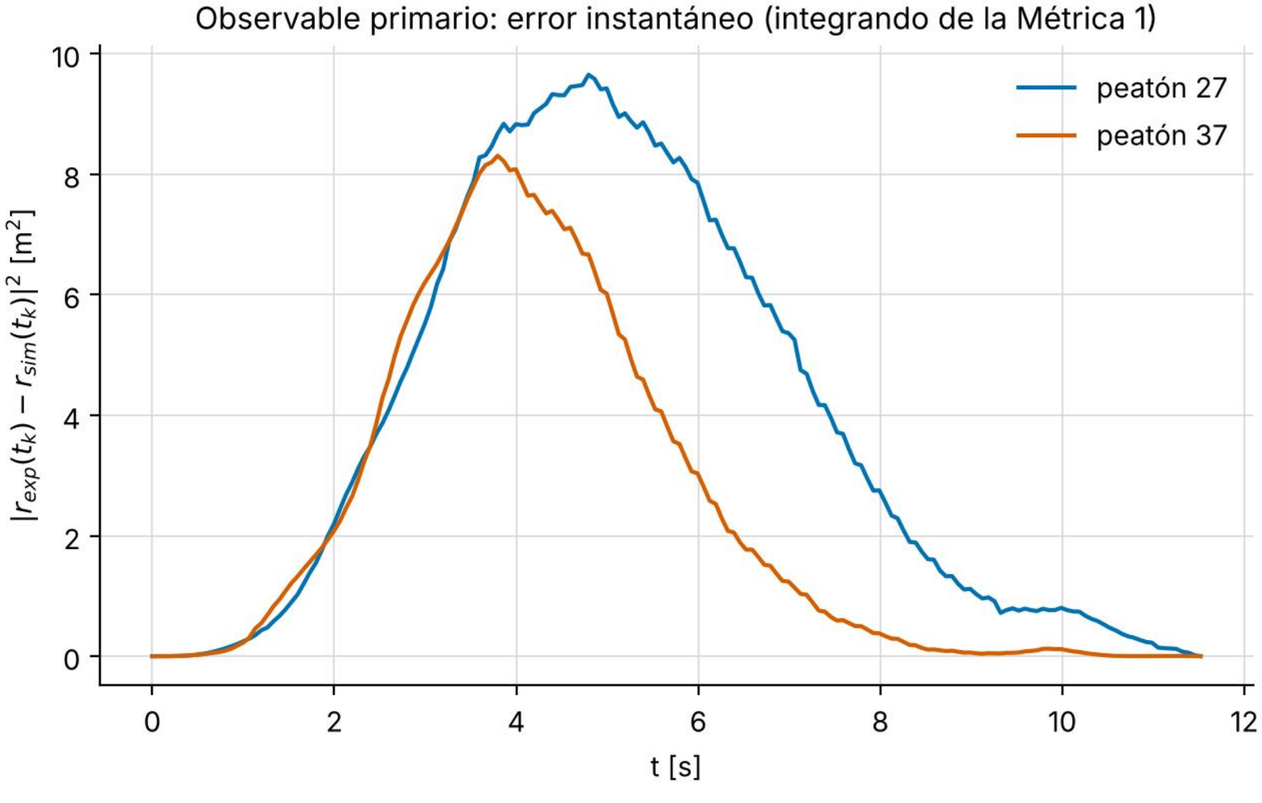

Evento 7: p1=6 s, p2=0.5 m (■ inicio, ★ target final)
